##### Office of Air Quality Planning and Standards

*Title:* Clean Air Act, Title V—Operating Permits Regulations-Information Requirements Supplement, (EPA ICR #1587.03; OMB #2060-0234.)

*Abstract:* This ICR is for an extension of an existing information collection in support of the Clean Air Act, as described in 40 CFR Part 70 establishing the minimum elements governing the development of State operating permit programs. Under this ICR, State and local government permitting authorities and stationary sources of air pollution will incur costs and burden. Permitting authorities have been working on their Title V programs since the promulgation of this original ICR on 7/1/92. EPA has completed the majority of reviews of Title V programs submitted by State and

local agencies. State and local authorities must provide EPA with the following: (1) Title V permit program; (2) permit applications and proposed permits; and (3) upon occurrence, applications for permit revisions and proposed revisions.

Under this ICR, owners and operators of affected sources must provide the State or local permitting authority with (1) An operating permit application every 5 years; (2) semi-annual submission of monitoring or recordkeeping data; (3) annual certification of compliance; and (4) upon occurrence, applications for permit revisions. Sources must maintain all records that are representative of compliance with the Title V program.

This ICR submission is only for a year extension to July 31, 1996. During this time, the Office of Air Quality Planning and Standards will finish the development of the new Title V Compliance rule. A final rule is expected to be promulgated by December 31, 1995. At that time, a new ICR will be submitted to OMB for review, containing the updated burden hour calculations.

The supplement includes burden estimates that will be placed on the public and State and local authorities during the period of July 31, 1995 through July 31, 1996.

**Burden Statement:** Due to the completion of the Title V permitting program development by State and local permitting authorities, this ICR supplement represents the actual public reporting burden over the next year.

**Respondents:** State and local governments and stationary sources.

**Estimated Total Annual Burden on Respondents:** 8,262,672 hours.

**Estimated Number of Respondents:** 34,324 respondents.

**Frequency of Collection:** Semi-annually, annually, upon occurrence and every 5 years.

Send comments regarding the burden estimate, or any other aspect of this information collection supplement, including suggestions for reducing burden, (please refer to EPA ICR #1587.03 and #2060-0234) to:

**AGENCY:** Environmental Protection Agency.

**ACTION:** Establishment of Advisory Committee.

**SUMMARY:** As required by Section 9(a)(2) of the Federal Advisory Committee Act (FACA), 5 U.S.C. App., EPA is giving notice of the establishment of an advisory committee. This committee will provide recommendations and comments on the process and procedures to develop and operate a national environmental laboratory accreditation program, and will be known as the "Environmental Laboratory Advisory Board" (ELAB). EPA has determined that the establishment of this advisory committee is in the public interest and will assist the Agency in performing its duties under its various statutes. Copies of the Committee's charter will be filed with the appropriate committees of Congress and the Library of Congress in accordance with section 9(c) of FACA.

The membership of the ELAB has not yet been appointed by the Administrator. Consistent with the objectives of the National Environmental Laboratory Accreditation Conference and the requirements of FACA, the membership of the ELAB will be balanced among the Agency's various outside stakeholder interests. The first meeting of the ELAB will be announced separately in a **Federal Register** notice.

##### **I. Background**

Under the Congressional mandate in section 406(a) of TSCA, EPA has developed a final lead hazard information pamphlet. Congress specifically required that the pamphlet: (1) Contain information regarding the health risks associated with exposure to lead; (2) provide information on the presence of lead-based paint hazards in Federally-assisted, Federally-owned, and target housing; (3) describe the risks of lead exposure for children under 6 years of age, pregnant women, women of childbearing age, persons involved in home renovation (of target housing), and others residing in a dwelling with lead-based paint hazards; (4) describe the risks of renovation in a dwelling with lead-based paint hazards; (5) provide information on approved methods for evaluating and reducing lead-based paint hazards and their effectiveness in identifying, reducing, eliminating, or preventing exposure to lead-based paint hazards; (6) advise persons how to obtain a list of contractors certified pursuant to TSCA section 402 in lead-based paint hazard evaluation and reduction in the area in which the pamphlet is to be used; (7) state that a risk assessment or inspection for lead-based paint is recommended prior to the purchase, lease, or renovation of target housing; (8) state that certain State and local laws impose additional requirements related to lead-based paint in housing and provide a listing of Federal, State, and local agencies in each State, including address and telephone number, that can provide information about applicable laws and available governmental and private assistance and financing; and (9) provide such other information about environmental hazards associated with residential real property as the Administrator deems appropriate.

EPA and HUD will distribute this pamphlet under several Congressional directives that will be implemented in separate rulemaking initiatives. Section 406(b) of TSCA requires that EPA promulgate regulations requiring each
